

We understand

Taking care of work and family can be demanding. While you're doing so much, who's taking care of you? At The Co-operators, we put people – and their needs – first. We can help you find the life insurance you need to protect what matters most.

Your needs

Even though life gets busy, it's important to make time to plan and secure your financial future. Consider what could happen to your loved ones in the event of the unexpected:

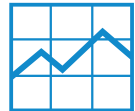

- > Could you or your spouse live on one salary alone?
- > Could mortgage, child care and other monthly expenses be maintained?
- > Could you continue to save enough for your child's education, your retirement and so on?

Remember: Needs can change as you experience significant life events, such as a career move, a new home or a growing family. Review your life insurance regularly to ensure that you have the right coverage at the right time.

Your budget

When taking the important step of securing your family's financial future, it's okay to have questions:

- > What's the right type of Life insurance to buy?
- > How much coverage do you need?
- > Can you afford what you need?

Did you know? Life insurance can be more affordable than you think – and it's cheaper and easier to qualify the younger and healthier you are.
