CO-OPERATORS GENERAL INSURANCE COMPANY

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(unaudited)

(Amounts in thousands of Canadian dollars, except for per share amounts and where otherwise noted)

1. Nature of operations

Unless otherwise noted or the context otherwise indicates, in these notes “Company” refers to the Consolidated Co-operators General Insurance Company. CGIC refers to the Non-Consolidated Co-operators General Insurance Company.

The Company is comprised of CGIC and its wholly owned subsidiaries: The Sovereign General Insurance Company (Sovereign), COSECO Insurance Company (COSECO), L'Équitable, Compagnie d'assurances Générale (L'Équitable), Co-operators Investment Limited Partnership (CILP) and Co-operators Insurance Agencies Limited (CIAL). 100% of the voting rights attached to all the outstanding voting shares or partnership interests of each of Sovereign, COSECO, L'Équitable, CILP and CIAL are held by the Company.

The registered office of the Company is 130 Macdonell Street, Guelph, Ontario. The Company is domiciled in Canada and is incorporated under the Insurance Companies Act (Canada). These condensed consolidated interim financial statements of the Company for the nine months ended September 30, 2017 were authorized for issue in accordance with a resolution of the Audit Committee of the Board of Directors on October 26, 2017.

CGIC and certain of its subsidiaries are licensed to write all classes of insurance, other than life, in all provinces and territories in Canada. CGIC and certain of its subsidiaries are regulated by the federal insurance act. The Company must comply with reporting requirements of its regulator the Office of the Superintendent of Financial Institutions, Canada (OSFI).

The Company's common shares are 100% owned by Co-operators Financial Services Limited (CFSL), which in turn is owned 100% by The Co-operators Group Limited (CGL). The Class E preference shares, Series C are traded on the Toronto Stock Exchange under the symbol CCS.PR.C.

2. Summary of significant accounting policies

Basis of preparation and statement of compliance

These condensed consolidated interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) applicable to the preparation of interim financial statements, including International Accounting Standard (IAS) 34, “Interim Financial Reporting”.

The consolidated balance sheets are presented on a non-classified basis. Assets expected to be realized and liabilities expected to be settled within the Company's normal operating cycle of one year would typically be considered as current. Certain balances are comprised of both current and non-current amounts.

Seasonality

The property and casualty insurance business is seasonal in nature. Premiums are generally written in annual renewal cycles, often in the second quarter each year. Weather conditions can vary significantly between quarters, with extreme weather conditions historically having an impact on the first and third quarters.

Segmented information

The Company's results of operations are reviewed by senior management and the Board of Directors based on one reporting and operating segment, property and casualty operations. Prior to 2016, results were reviewed and assessed at each legal entity within the consolidated group.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(unaudited)

(Amounts in thousands of Canadian dollars, except for per share, weighted average number of common shares and where otherwise noted)

Significant accounting policies

These condensed consolidated interim financial statements should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2016, which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies followed in these condensed consolidated interim financial statements are consistent as those applied in the Company's audited consolidated financial statements for the year ended December 31, 2016, with the exception noted below.

In 2017, the Company reclassified net payments in transit from Borrowings to Accounts payable and accrued charges. These amounts relate to investment purchases and sales entered into, or other payments made by cheque, close to the period end, that are settled shortly after the period end. The change provides more relevant information about the nature of the Company's liabilities. Consequently, the comparative figures for Accounts payable and accrued charges has increased by \$17,941 to \$201,758 as a result of reclassification from Borrowings to conform to our current period presentation. Under the previous presentation, September 30, 2017 figures would have been \$189,016 for Accounts payable and accrued charges and \$4,872 for Borrowings.

The significant estimates and judgments made by management in applying accounting policies and the key sources of estimation uncertainty are the same as those that applied to the consolidated financial statements of the Company for the year ended December 31, 2016.

The Company has the following updates to information provided in the consolidated financial statements ended December 31, 2016 about the standards issued but not yet effective.

IFRS 17 "Insurance contracts"

IFRS 17 was issued in May 2017 and will replace IFRS 4 "Insurance Contracts". The intent of the standard is to establish consistent recognition, measurement, presentation and disclosure principles to provide relevant and comparable reporting of insurance contracts across jurisdictions.

The standard requires entities to measure insurance contract liabilities as the risk-adjusted present value of the cash flows plus the contractual service margin, which represents the unearned profit the entity will recognize as future service is provided. This is referred to as the general model. Expedients are specified, provided the insurance contracts meet certain conditions. If, at initial recognition or subsequently, the contractual service margin becomes negative, the contract is considered onerous and the excess is recognized immediately in the consolidated statement of income. The standard also includes significant changes to the presentation and disclosure of insurance contracts within entities' financial statements.

IFRS 17 is effective for annual reporting periods beginning on or after January 1, 2021. The standard is to be applied retrospectively unless impracticable, in which case a modified retrospective approach or fair value approach is to be used for transition. Early application is permitted where entities have also applied IFRS 15 "Revenue from Contracts with Customers" and IFRS 9 "Financial Instruments". The Company is currently evaluating the impact that this standard will have on its consolidated financial statements.

b) Investments - measured at fair value

The Company is responsible for determining the fair value of its investment portfolio by utilizing market-driven measurements obtained from active markets where available, by considering other observable and unobservable inputs and by employing valuation techniques that make use of current market data. Assets and liabilities recorded at fair value in the consolidated balance sheets are measured and classified in a hierarchy consisting of three levels for disclosure purposes. The three levels are based on the significance and reliability of the inputs to the respective valuation techniques. The input levels are defined as follows:

Level 1 - Quoted prices

Represents unadjusted quoted prices for identical instruments exchanged in active markets. The fair value is determined based on quoted prices in active markets obtained from external pricing sources.

Level 2 - Significant other observable inputs

Includes directly or indirectly observable inputs other than quoted prices for identical instruments exchanged in active markets. These inputs include quoted prices for similar instruments exchanged in active markets and quoted prices for identical or similar instruments exchanged in inactive markets. For financial instruments that do not have directly observable inputs, the fair value is calculated as the present value of the future cash flows considering inputs other than quoted prices that are observable for the instruments, such as interest rates and yield curves, volatilities, prepayment spreads, credit risks and default rates where available; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. Consistent with market participants, the Company

(Amounts in thousands of Canadian dollars, except for per share, weighted average number of common shares and where otherwise noted)

determines the fair values of foreign exchange forward contracts by using a discounted cash flow valuation technique using observable market data.

Level 3 - Significant unobservable inputs

Includes inputs that are not based on observable market data. Management is required to use its own assumptions regarding unobservable inputs as there is little, if any, market activity in these assets or liabilities or related observable inputs that can be corroborated at the measurement date. Unobservable inputs require significant management judgement or estimation to make certain projections and assumptions about the information that would be used by market participants in pricing assets or liabilities. To verify pricing, the Company assesses the reasonability of the fair values by comparing to industry accepted valuation models, to movements in credit spreads and to recent transaction prices for similar assets where available.

The following summarizes how fair values were determined for recurring measurements as at:

No investments were transferred between levels during the period (2016 - \$nil).

The investments measured at fair value and classified as Level 3 as at September 30, 2017 are limited partnerships, which represent units of third-party managed private equity funds (Funds). The fair values of limited partnership investments are based on the net asset value (NAV) from each of the individual Funds most recent quarterly or annual financial statements. Limited partnership NAV's are derived by valuation techniques employed by each Funds management using unobservable inputs. The Company assesses the NAV disclosed in each Funds most recent financial statement using independent analytical procedures to ensure the amount is a reasonable representation of fair value. The Company does not assess the sensitivity of the fair value of limited partnerships because the inputs used by each fund manager to determine the NAV are unobservable and not readily available.

The fair value of mortgages at September 30, 2017 is \$441,357 (September 30, 2016 - \$537,881). Mortgages measured at fair value, for disclosure purposes only, are classified as Level 3. The fair value of the mortgages has been calculated by discounting the expected cash flows of each instrument. The discount rate is determined using the Government of Canada benchmark bond yield for instruments of similar maturity adjusted for specific credit risk. In determining the adjustment for credit risk, the Company considers market conditions, the value of the properties that the mortgage is secured by and other indicators of creditworthiness.
