

INVESTOR PROFILE

Suited to investors seeking growth provided by capital appreciation of Canadian equities and with a long-term investment horizon. Investors should be able to accept a moderate level of risk.

INVESTMENT OBJECTIVE

To provide long-term capital growth by investing primarily in Canadian equity securities.

INVESTMENT STRATEGY

The fund intends to achieve its objective by following a bottom-up growth investment style in order to deliver superior long-term growth potential. When buying and selling securities for the fund, each company's potential for success in light of its current financial condition, its industry position, and economic and market conditions is examined. Factors such as growth potential, earnings estimates, and quality of management are considered.

The fund may invest up to approximately 30% of its assets in foreign securities and may hold cash and fixed income securities. Investment of up to 10% of net assets in gold and/or silver is also permitted.

The fund may also use repurchase transactions, reverse repurchase transactions, and securities lending transactions to the extent permitted by the Underlying Fund prospectus. Derivatives such as options, future contracts, forward contracts, and swaps may be utilized and currency forward contracts are permitted to manage the funds' overall foreign currency exposure for hedging purposes.
