

ADDENDA

CAPITAL

Cash & Short Term 100.0%

INVESTOR PROFILE

Suited to investors seeking interest income and a high level of liquidity with a short to medium-term investment horizon. Investors should be able to accept a low level of risk.

INVESTMENT OBJECTIVE

To provide a secure source of interest income by investing in Canadian short-term money market instruments and cash.

INVESTMENT STRATEGY

The fund intends to achieve its objective by investing in short-term money market instruments issued or guaranteed by the Government of Canada, the provinces and high-grade Canadian corporations.

All of the assets are denominated in Canadian dollars and invest in cash or debt obligations maturing in 13 months or less. There may be exceptions in the case of investment in government securities which will mature in 25 months or less. The Fund will have a dollar-weighted average term to maturity not exceeding 180 days.

A combination of fundamental factors and technical analysis is used to establish the outlook for interest rates. The portfolio is then positioned along the short end of the yield curve to take advantage of anticipated interest rate changes.

ESG criteria is also incorporated in the investment analysis and decision-making process.
